Dear Dr. Benga,

Following is my testimony regarding your priority. You have my authorization to read all or any part of it to the audience as you see fit.

I have not yet, but will later add my signature and comments to your petition on the Website.

"I wish to add my endorsement to the many who have already done so that testify to Dr. Benga's priority for the discovery of the "water channel protein". It is but one more example of the Nobel Organization's aversion to evidence and their preference for the "finger-in-the-wind" test."

Sincerely yours,

Raymond V. Damadian, M.D.
